

COMMUNICATION TO TREATMENT OF PERSONAL DATA (EU Regulation 679/2016 - GDPR)

In accordance with current legislation, we inform our patients - as stakeholders in treatment - that: the processing of personal data is aimed solely at the correct and complete execution of the required health services; the data that will be processed concern: personal identification, fiscal data, anamnestic data, current and previous findings; current and previous reports; medical records; the treatment will be carried out using manual, computerized and telematic tools, in order to guarantee security and confidentiality. Personal data may be disclosed to third parties such as: public bodies, and tax consultants who are located in the European Union, whenever the communication is necessary for the proper fulfillment of the purposes indicated above and for the execution of the other strictly related management aspects; the provision of personal data is strictly necessary for the performance of the requested services.

The law guarantees the exercise of the rights of the stakeholder. In particular, the stakeholder may request: the indication of personal data, the purposes and methods of data processing and identification details of the data controller and data processors; the list of subjects or categories of subjects to whom the data may be communicated; the updating, the correction or the integration of data; cancellation, transformation into anonymous form or blocking of data processed in violation of the law. Finally, you have the right to object, in whole or in part, for legitimate reasons, to the processing of personal data, with communication to the Data Processor, provided that the – objection is legitimate, proposing a complaint to the Supervisory Authority.
